Subject: Conference Call - Harco Site

Telephone Conference call to discuss the Harco site status regarding the EPA site activities and limited Superfund moneys allocated to the project.

Date: July 8, 1992
Wednesday
2:00 pm

This teleconference is a pre state discussion between EPA personnel to review EPA's options available prior to presenting any views to the state.

Options for site work

- a. fence to restrict access
- b. drain wetlands to restrict water contact with sludge
- c. excavate and build RCRA cell on site

PRP involvement.

Cost sharing options

- a. state/EPA

NO ACTION at site by EPA, defer to state for site remediation.

legal issues and potential pitfalls for EPA

Political and residential group pressure
